

Constraint Induced Therapy Overview & MRC Case Studies

Patricia Oyarce, MPT

Lisa Poe, OTR/L

James W. Irby Jr., Ph.D., ABPP-CN

Wednesday, September 9, 2009

NOON

Methodist Rehabilitation Center
Second Floor Conference Center

Series Objective:

Promote clinical excellence for patients receiving neurological rehabilitation by

1. Enhancing knowledge of brain-behavior relationships
2. Enhancing the ability of clinicians to critique the scientific literature
3. Enhancing knowledge of evidenced based practice for treating patients in rehabilitation settings

Learning Objectives:

Following this lecture, participants will be better able to:

1. Describe the theoretical background and research history of CI therapy.
2. Provide an overview of the CI therapy protocol.
3. List the criteria that are used in selecting patients for CI therapy.
4. Summarize the components and process of the CI therapy paradigm through case presentation.

Commercial Support

None of the presenters or members of the planning committee have commercial support relationships to disclose.

About the speakers:

Patricia Oyarce, PT, MS is a staff physical therapist at Quest Outpatient Program a Division of Methodist Rehabilitation Center. She earned her physical therapy degree from the University of Chile and completed her post-professional Master's degree in 2004 at Samuel Merritt University in Oakland, CA. In 2007 Patricia attended the Constraint Induced (CI) Therapy Training Program for Health Professionals at University of Alabama at Birmingham.

Lisa Poe, OTR/L is a staff occupational therapist at Quest Outpatient Program a Division of Methodist Rehabilitation Center. She earned her occupational therapy degree from the University of Mississippi Medical Center, School of Health Related Professions in 1994. In 2007 Lisa attended the Constraint Induced (CI) Therapy Training Program for Health Professionals at University of Alabama at Birmingham.

James W. Irby Jr., Ph.D., ABPP-CN is a staff neuropsychologist at Methodist Rehabilitation Center who provides consultation services for the brain injury, stroke, and spinal cord injury units and outpatient neuropsychological assessment and psychotherapy for individuals with brain injury and stroke. He is board certified in clinical neuropsychology and has over 15 years of experience working with individuals with brain injuries and stroke.

Continuing Education Credit

Satisfactory completion of this activity requires a minimum attendance at 90% of the lecture and completion of an activity assessment and self assessment of achievement of learning objectives. Satisfactory completion of the activity is required for continuing education credit to be awarded.

Psychologists:

Methodist Rehabilitation Center is approved by the American Psychological Association to offer continuing education for psychologists. Methodist Rehabilitation Center maintains responsibility for this activity.

Methodist Rehabilitation Center sponsors this activity for 1 hour of continuing education for psychologists

Occupational Therapists:

Methodist Rehabilitation Center is an AOTA Approved Provider of continuing education. This activity is designated for .1 AOTA CEU. The assignment of AOTA CEUs does not imply endorsement of specific course content, products or clinical procedures by AOTA.

Physical Therapists:

An application for continuing education approval has been submitted to the Mississippi Board of Physical Therapy

Tuition: \$25.00; contact Lisa Nichols to register – 601-364-3550 or lnichols@mrrcrehab.org

Methodist Rehabilitation Center has twice been named one of America's Best Hospitals by U.S. News & World Report, and it's one of only two in the state accepted into the prestigious Council of Teaching Hospitals. The center's 9-year designation as one of only 16 Traumatic Brain Injury Model (TBI) System sites in the nation also has put MRC on the forefront of exciting improvements in the treatment of TBI.
