

CLINICAL NEUROPSYCHOLOGY SEMINAR SERIES 2008

Overview of Hydrocephalus

Arash Sepehri, MA

Tuesday, May 6, 2008

NOON

Methodist Rehabilitation Center Second Floor Conference Room

Series Objective:

Promote clinical excellence for patients receiving neurological rehabilitation by

1. Enhancing knowledge of brain-behavior relationships
2. Enhancing the ability of clinicians to critique the scientific literature
3. Enhancing knowledge of evidenced based practice for treating patients in rehabilitation settings

Learning Objectives:

Participants will be better able to:

1. Discuss the etiology of hydrocephalus and its different types.
2. Differentiate between the symptoms of hydrocephalus and other similar diseases.
3. Discuss the treatment options and the outcome prognosis for hydrocephalus.

Commercial Support

Neither Mr. Sepehri nor members of the planning committee have commercial support relationships to disclose.

Psychologists:

Methodist Rehabilitation Center is approved by the American Psychological Association to offer continuing education for psychologists. Methodist Rehabilitation Center offers this lecture for 1.0 hours of CE credit; MRC maintains responsibility for this activity.

Speech-Language Pathologists:

Methodist Rehabilitation Center is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. This program is offered for 0.1 CEU, Introductory level; Professional area. ASHA CE Provider approval does not imply endorsement of course content, specific products, or clinical procedures.

To receive ASHA CE credit, an ASHA CEU participant form must be filed.

Occupational Therapists:

Methodist Rehabilitation Center is an AOTA Approved Provider of continuing education. This activity is designated for .1 AOTA CEU. The assignment of AOTA CEUs does not imply endorsement of specific course content, products or clinical procedures by AOTA.

Methodist Rehabilitation Center has twice been the only hospital in Mississippi named one of America's Best by U.S. News & World Report, and it's one of only two in the state accepted into the prestigious Council of Teaching Hospitals. The center's 9-year designation as one of only 16 Traumatic Brain Injury Model (TBI) System sites in the nation also has put MRC on the forefront of exciting improvements in the treatment of TBI.
